Burial

Yogi

I came, I saw, I conquered, I balled I came, I saw, I conquered, I balled I came, I saw, I conquered, I balled I came, I saw, I conquered, I balledHold up, this the game, it chose us Pioneer, started on my corner like the cold crush Had smokers linin' up the block like a gold rush The sayin' "life fast and die young" is what they told us The way that they mold us, perfect way that showed us How to get money, f**k b*tches off this nose dust Showed me how to burn the block down before it slows up Before the window of opportunity close up I came, I saw, I conquered, I balled I came, I saw, I conquered, I balled Yogi said get em so I got 'em all (Yuugh!) And turned this b*tch into a burialLookin' from the top floor, what would I stop for? Still hear the crowd cheers, while I'm thinkin' encore Flyin' on a Concorde, listening to Tom Ford Little niggas rhyme poor, poverty flows in ya Part of beatin' hoes in, I am who you're tryin' for? I think not - Pusha, stay hot The coupe's got no roofs, forever they stay drop nigga I came, I saw, I conquered, I balled I came, I saw, I conquered, I balled Yogi said get em so I got 'em all (Yuugh!) And turned this b*tch into a burial
