

Can U Handle It?

Usher

What's up baby
I'm so glad I got you here
I'm so in love with you
And I don't ever wanna lose you
I wanna take this to the next level
I hope you ready Now that you're here
I got somethin' to say baby
I think that you should know
You're givin' the most, suga
So don't worry 'bout the situation
I'd never let you go
Can you handle it
If I go there baby with you
I can handle it
I can go there baby with you
Oh I hear you talkin' babe
Can you handle it
Can I go there baby with you
We gon' set it off
We gon' tear it up
Baby can you handle Wooooo baby
You say all the time
You only want the best of my love
Now I can see that
There's only one way to tear it up
Yeah
I'm willing to tell you
Everything I let stand between us
But what if I tell you too much
What about you babe
Will you tell me
All the freaky things you are
Before I do
Need you to know
If we make it through
Our love will grow
Oooh ho ho
Imagine how amazing things would be Can you handle it
Can I go there baby with you
We gon' set it of
We gon' tear it up
Baby can u handle
