

# Young Again

Morgan Evans

I can hear the music from the bars out in the street  
I got a neon rhythm in my hands and in my feet  
Dancin' here with you and the way you look at me  
You set fire to the moon, there's nowhere else I'd rather be  
And every song we're singin', we're  
singin' about us  
This night could last forever, but it won't be long enough  
'Cause we're drunk on love and  
whiskey shots  
So what, the clock says 1 a.m  
And we'll raise a glass to the wild and free  
We will never be this young again  
We will never be this young again  
Throw a 20 in the jukebox, playin' DJ for the night  
Got some friends in low places helpin' us get high  
Yeah, the morning's comin' quick, but we got time to steal a kiss  
It's like the best nights of our lives are gonna all go down like this  
'Cause we're drunk on love  
and whiskey shots  
So what, the clock says 2 a.m  
And we'll raise a glass to the wild and free  
We will never be this young again  
We will never be this young again  
Every song we're singing's out of tune and out of time  
We're just gettin' started when they're callin' closin' time  
'Cause we're drunk on love and whiskey shots  
So what, the clock says 3 a.m  
And we'll raise a glass to the wild and free  
We will never be this young again  
We will never be this young again  
Yeah, we're drunk on love and whiskey shots  
So what, the clock says 4 a.m  
And the sun will rise long before we sleep  
We will never be this young again  
We will never be this young again  
We will never be this young again
