Want More (feat. Kranium)

Rotimi

Rotimi!
Kranium!
Call me...
Yeah, WagwonIts never late, a summer day
Still make me wonder
Should have been, you and me
But never say never
The way you settled down with him, you be settling
Mama why you waste your timeWon't go so far to say, you can do better
Baby so far no good, looks like you fed up
Everytime you walk away, girl its something extra
Call me when you want more, when you want more
Call me when you want more, when you want more
Call me when you want more, when you want more
Everytime you walk away, girl its something extra
Call me when you want more, when you want moreWhen me say, me a go
You don't offer it
Its been a minute baby, and im into it
Love satisfaction, yes at your body shape
Your mine, loving all night, can't wait
Why won't you just wait for me baby
Put that something sexy on for me girl aye
If you know, someone that boss
You a trend setter
From ya, lets me you can't find no better
Better jump ship when jump'n in the jetta
Make your body spin round like a propeller
Why won't you just wait for me baby
Put that something sexy on for me girl aye
Won't go so far to say, you can do better
Baby so far no good, looks like you fed up
Everytime you walk away, girl its something extra
Call me when you want more, when you want more
Call me when you want more, when you want more
Call me when you want more, when you want moreEverytime you walk away, girl its something extra
Call me when you want more, when you want moreWhere you been my life
Let me dress you nice
Could be wasting time
Fuckin with a young boy not tonight
I could try to fly, Anywhere you like
You should leave tonight

You could never handle words like that
Theres a difference between settling down and settle'n
Why you try to force your smileWon't go so far to say, you can do better
Baby so far no good, looks like you fed up
Everytime you walk away, girl its something extra
Call me when you want more, when you want more
Call me when you want more, when you want more
Call me when you want more, when you want moreEverytime you walk away, girl its something extra
Call me when you want more, when you want moreCall me when you want more, when you want more
