

I'm Burning Up

Karine Hannah & Dave Audé

You love
Like the city of hope and you lie
Like it's written in gold and you play
Like we live on the stage and you're good
Your darker side is holding me
You said you'd love me
You said you'd never hurt me
You said you wouldn't burn me
I'm burning up right now
Something's out of order, burning up right now
I can see through your lies, burning up right now
Cause i know that it's over, burning up, burning up
And i don't want to do this tonight
I don't want to do this tonight
You love
Like you're trying to win and you lie
Like a politician and you play
Like it's a masquerade and you think
You got me blinded with your games
You said you'd love me
You said you'd never hurt me
You said you wouldn't burn me
I'm burning up right now
Something's out of order, burning up right now
I can see through your lies, burning up right now
Cause i know that it's over, burning up, burning up
And i don't want to do this tonight
I don't want to do this tonight
In my heart there's still a fight
Got your hands on my mind
Hurt my once, it isn't right
I can't let go, not tonight
Tonight, tonight, tonight, tonight (x14)...
I'm burning up right now
Something's out of order, burning up right now
I can see through your lies, burning up right now
Cause i know that it's over, burning up, burning up
And i don't want to do this tonight
I don't want to do this tonight
I'm burning up right now
Something's out of order, burning up right now
I can see through your lies, burning up right now

Cause i know that it's over, burning up, burning up
And i don't want to do this tonight
I don't want to do this tonight
I don't want to do this tonight
I don't want to do this tonight
I don't want to do this tonight
