

# Never Enough

## Logic

When that liquor get po' up  
And that green get roll up  
When them sets get throwed up  
I'm like naw man, hol' up  
Yea we bout it, sho 'nuff  
Better hope they don't call my bluff  
Cause my mind is going crazy  
This shit is never enough  
Never enough, never enough, never enough  
This shit is never enough  
Crush a bit, little bit  
Roll it up, take a hit  
At the party with my homies  
Walk up and they play my shit  
On the road, kick a song  
Didn't have to sell my soul  
Visionary in this bitch and domination is the goal  
Where you stay, every day  
Just got my crib in LA  
Never play, we been at it way before that IDJ  
Never cease to be enough when money is the motive, cuh  
Bitches on my dick, don't give a fuck  
Y'all must not know what's up  
In the cut, we don't give a fuck  
We just tryna cut  
Line em up, if they say they bout then we'll sign em up  
Rattpack, that's a fact  
Basic bitch can't fuck with that  
Where you at  
That's what they be asking, I say on the map  
We are, the coolest motherfuckers on the planet  
Drop that new shit just cause they demand it  
Living like we got it cause we get it  
Do it just to say we fucking did it  
When that liquor get po' up  
And that green get roll up  
When them sets get throwed up  
I'm like naw man, hol' up  
Yea we bout it, sho 'nuff  
Better hope they don't call my bluff  
Cause my mind is going crazy  
This shit is never enough  
Never enough, never enough, never enough  
This shit is never enough  
This album was created over the span of one year. However, the majority of the album was recorded in only two weeks

Song Discussions is protected by U.S. Patent 9401941. Other patents pending.
