

# Firebird

## Galantis

We started at the cinema  
T-Roof dancing hands in the wind  
Rizlas, rollin up a cigarette  
The boys are calling shotgun again  
Hot blooded like a harlequin  
Our heroine is tremblin  
Shake shaken like a tambourine  
Colors runnin into our skin  
And all the stars are awaken  
To the sound of the firebird  
Under the sky half naked  
Oh oh  
And all the stars are awaken  
To the sound of the firebird  
Under the sky half naked  
Oh oh  
And all the stars are awaken  
To the sound of the firebird  
Under the sky half naked  
Oh Oh
