

# Always See Your Face

## Love

Won't somebody please  
Help me with my miseries?  
Can somebody see, yeah  
What this world has done to me? And I know, I know  
And I say, oh I say  
That no matter where I go, no  
I will always see your face. Won't somebody please  
Help me with my memories?  
Can somebody see, yeah  
What this world has done to me? Yeah.  
And I know, I know  
And I say, oh I say  
That no matter where you go, no  
You will always see my face. And I know, I know  
And I say, oh I say  
That no matter where you go, no  
You will always see my face. No matter where you go, no  
You will always see my face. And no matter where you go, no  
You will always see my face.  
And no matter where I go, no  
I will always see your face.  
Yeah, look, and I can see your face  
Yeah, look, and you can see my face  
Hey, I'm looking at you looking at me
