

Escape

Newsboys

Don't believe the hype You're being tempted by the same ol'
You say, "It's under control"
Just remind me how you see so clearly
Face down in a hole Press toward the light
And the light will ground you
Go with the flow
And the flow will drown you
Hey, now, there's always an out But if you get up, get up, get up
You can breakaway
And if you get out, get out, get out
Nothing can overtake
Don't wait, escape
We get beaten by the same sticks
Until we start to crack
We get deceived by the same tricks
That's why the devil's bringing 'em back
(He's bringing 'em back, yeah) But if you get up, get up, get up
You can breakaway
(You gotta breakaway)
And if you get out, get out, get out
Nothing can overtake
Don't wait, escape (Don't believe the hype)
It's such a letdown
(Don't believe the hype)
It's such a letdown
(Don't believe the hype)
It's such a letdown
(Don't believe the hype)
It is a letdown But if you get up, get up, get up
You can breakaway
(You gotta breakaway)
And if you get out, get out, get out
Nothing can overtake Get up, get up, get up
You can breakaway
(You gotta breakaway)
And if you get out, get out, get out
Nothing can overtake
Don't wait, escape, escape, escape
