

# Keep Running

Tei Shi

Every time I look over my shoulder  
I'm getting older  
I'm getting older Every time I look over my shoulder  
I'm getting older  
I'm getting older Time is so sad  
Tie me to it  
Strapped to my side  
Never look back Baby keep running, keep running for me  
Chasing the things that you see in your sleep Baby, keep running, keep running for me  
Don't hesitate, don't make me wait  
If you want my loving then you better start running  
(If you want my loving then you better start running)  
(If you want my loving then you better start running) Every time I look over my shoulder  
I'm getting older  
I'm getting older Time is so sad  
(Time is sad, time is sad, time is sad, time is sad)  
Tie me to it (Tie me up, tie me up, tie me up, tie me up)  
Strapped to my side (To my side, to my side, to my side, to my side)  
Never look back  
(Time is up, time is up, time is up, time is up) Baby keep running, keep running for me  
(If you keep on running, if you keep on running) Chasing the things that you see in your sleep  
(If you're chasing things, if you're chasing things)  
Baby keep running, keep running for me  
(If you keep on running, if you keep on running)  
Don't hesitate, don't make me wait  
(If you want my loving, if you want my loving) Baby keep running, keep running for me  
(If you keep on running, if you keep on running for me)  
Chasing the things that you see in your sleep (If you're chasing things, if you're chasing things)  
Baby keep running, keep running for me  
(If you keep on running, if you keep on running)  
Don't hesitate, don't make me wait  
If you want my loving then you
