

You're Still My Man

Whitney Houston

On the day that you left me
You said you had no regrets
There's a bond between us
That hasn't been broken yet
And the feelings between us
Will never disappear
How can you be far away
When your spirit's here You're still my man
Nothing can change it
We still belong together
You're still my man
Nothing can change it
Our love will last forever
And the seasons of our love
Will always change I know
Maybe that's the reason
You felt we had to go
But soon you'll be missing me
Darling I know you well
There's a magic we share together
And no one can break that spell You're still my man
Nothing can change it
We still belong together
You're still my man
Nothing can change it
Our love will last forever I'll wait for you
The thought that keeps me going each day
Is I believe you still love me
I love you more than words can say
You're still my man
Nothing's gonna change it
Don't you know, you oughta know we belong together You're still my man
And nothing can change it
Oh baby oh darling you're in my heart forever
Cuz you're my man
Without you
Darling, our love at all You're still my man
Nothing can change it
Don't you know you oughta know
we belong together
Oh You're still my man
Nothing can change it

Oh baby oh darling you're in my heart forever
You're still my man
Nothing can change it
I'm yours, you know you're mine
You're in my heart forever
You're still my man
Nothing can change it
Don't you know you oughta know
we belong together
You're still my man...
