#BDAY (feat. Chris Brown, Siya & Sage the Gemini)

Tank

Girl it's your birthday, birthday in here, in here, tonight, tonight
Girl it's your birthday, birthday in here, in here, tonight, tonight
Give it to me, go
Go, go, go, shawty it's your bday
You and your girls taking shots like a relay
I know y'all only come around when the bottles out
Shit, I only come around when the models out
So what's your sign baby?
You a Cancer or Gemini baby?
You a freak, do you do it for the Vine baby?
I'm just tryna figure out if we can vibe baby
I don't wanna waste no time
I just wanna help you celebrate
Cause I don't meet 'em like you everyday
Blow them candles out and get down to the cake
I don't wanna waste no time
Baby girl, I know this what you like
Get it in the air, we can take flight
It's a special dance, only right girl
Since you walked through the doors, it's been like
Lemme show you what it's for cause I'll
Give you all I got and won't look back
What I do today, you gon' remember that
Cause it's your birthday (birthday) in here (in here) tonight (tonight)
Girl it's your birthday (birthday) in here (in here) tonight (tonight)
Give it to me, go babe (go babe), go babe (go babe), go babe (go babe)
Can you get low babe (low babe), low babe (low babe), low babe (low babe)?
I see you sitting with your man, but you're over there staring at me
I'm already making plans, baby I know what your tip gon' be
You know I'm the truth huh, I do all the things you wanna do huh
We should let you loose huh, strip you down to your birthday suit huh
(Since you walked through the doors, it's been like
Lemme show you what it's for cause I'll)
Give you all I got and won't look back (I won't look back)
What I do today, you gon' remember that
Cause it's your birthday (birthday) in here (in here) tonight (tonight)
Girl it's your birthday (birthday) in here (in here) tonight (tonight)
Give it to me, go babe (go babe), go babe (go babe), go babe (go babe)
Can you get low babe (low babe), low babe (low babe), low babe (low babe)?
Uh, I feel like your man know your future

He know that if he leave you alone, I'mma seduce ya
Walk around talking 'bout karma is a bitch
But if I ever say Karma, I'mma end it with the Sutra
Happy birthday, yeah we gon' get along
Here's a bag of nothing, gon' put it on
What about your ex? You ain't finna check your phone
She respond like "Who?" I'm like shit, Mike Jones
All the models out, spent a check and bring the bottles out
Pass 'em out, what shot you want? Count it out
Wilding out like Nick Cannon in NY
And we gon' get right cause
Cause it's your birthday (birthday) in here (in here) tonight (tonight)
Girl it's your birthday (birthday) in here (in here) tonight (tonight)
Give it to me, go babe (go babe), go babe (go babe), go babe (go babe)
Can you get low babe (low babe), low babe (low babe), low babe (low babe)?
Get it on the floor girl cause the ballers in here
Get it on the floor girl, show me that it's real
Get it girl, get it, gon' get it girl
Get it girl, get it, gon' get it girl
Get it on the floor girl cause the ballers in here
Get it on the floor girl, show me that it's real
Get it girl, get it, gon' get it girl
It's your birthday, gon' get it, gon' get it girl
Show me that it's really your birthday in here
Show me that it's really your birthday in here
Gon' get it, gon' get it girl
