Can You Play Some More (pull It Up)

Beres Hammond & Buju Banton

Pull up the vibes that you're playing
Can you play some more, can you play some more?
Lift it up, jock it up, pull it up, come again now
Can you play some more, can you play some more?Yes, you got me rocking in a corner
With all the lights turn down low
Can't express how mi glad mi come on ya
I've never seen so much good vibes flowEveryone inside is like family, yeah
I see no strangers around the whole massive is here
And tonight we nuh care, kill the violence dead
Mek we rock it instead jump and palave every man get red nowPull up the vibes that you're playing
Can you play some more, can you play some more?
Lift it up, jock it up, pull it up, come again now
Can you play some more, can you play some more?
Scary and the one name Skellion
Dem know everything wey a gwaan
Mi a go rope dem inna me corner
Fi find out if me brethren dem inna de lawnEverywhere I look is pure skanking, I see no statue around, yeah
Every massive is here and tonight we nuh care
Kill the violence dead, mek we rock it instead
Jump and palave every man get red nowPull up the vibes that you're playing
Can you play some more, can you play some more?
Lift it up, jock it up, pull it up, come again now
Can you play some more, can you play some more?Yes, you got me rocking in a corner
With all the lights turn down low
Can't express how mi glad mi come on ya
I've never seen so much good vibes flow
Everyone inside is like family, yeah
I see no strangers around, and every massive is here
And tonight we nuh care, kill the violence dead
Mek we rock it instead jump and palave every man get red nowPull up the vibes that you're playing
Can you play some more, can you play some more?
Lift it up, pull it up, jock it up, come again now
Can you play some more, can you play some more?Pull up the vibes that you're playing
Can you play some more, can you play some more?
Lift it up, pull it up, jock it up, come again now
Can you play some more, can you play some more?Won't you pull up the vibes that you're playing?
Can you play some more, can you play some more?
