

# We Got Love (feat. Lauryn Hill)

Teyana Taylor

We got love  
Love, love  
You better believe it  
We got love  
Love, love  
You better believe it I got house in the carriage yeah  
I got black love in marriage yeah  
They gon say you can't have it but  
I'm like don't kill the messenger  
We gon break the stigma up  
Huxtables to the Obamas  
It ain't about where you been  
Where you from  
What you got  
It's all about love  
Self love is the best love  
When you go take that wristband off  
That pity party been over  
Don't need makeup to dress you up  
I gave birth on the bathroom floor  
Just me, Iman, and headphone cords  
Don't let this life defeat you  
I hope this message reach you  
Throw your hands up  
Play catch with the hundreds  
Love is the new money  
I'm just chillin' with the homies  
Home is where the heart is  
Throw your hands up  
Play catch with the hundreds  
Love is the new money  
I'm just chillin' with the homies  
Home is where the heart is  
Throw your hands up We got love  
Love, love  
You better believe it  
We got love  
Love, love  
You better believe it  
I live in abundance  
Love is the new money  
I'm mentally wealthy

Spiritually conscious  
I'm fresh outta Onyx  
I'm bawlin' and ballin'  
I play with the hundreds  
Love is the new money  
That's my frequency  
Spark up burn the sage  
Clear the room kill the hate  
Love is the new wave Play catch with the hundreds  
Love is the new money  
I'm just chillin' with the homies  
Home is where the heart is  
Play catch with the hundreds  
Love is the new money  
I'm just chillin' with the homies  
Home is where the heart is We got love  
Love, love  
You better believe it  
We got love  
Love, love  
You better believe it  
Love, love, love  
You better believe it  
We got love  
Love, love  
You better believe it Play catch with the hundreds  
Love is the new money  
I'm just chillin' with the homies  
Home is where the heart is  
Play catch with the hundreds  
Love is the new money  
I'm just chillin' with the homies  
Home is where the heart is [Lauryn Hill:]  
Above all you keep your clarity  
You keep your focus  
You keep your sense of love  
And you keep your sense of purpose  
Those are, they're integral  
You know, they're key  
Happiness  
You know, um a lot of people define success differently  
You know for me  
You can have everything  
You could have all the money in the world  
But if its not enjoyable, if its not sustainable, you know  
If you can't be a person of integrity while having all these things  
What does it matter?  
What does it mean?  
The value is internal

Your value is internal We got love  
Love, love  
You better believe it  
We got love  
Love, love  
You better believe it
