One Night (Reece Low & Joel Fletcher Remix)

Starfuckers

I wish I could have this night for life
We can do this shit forever
But we only get to have one night
Make it something to rememberLets get faded faded
Tell the world we made it
Tonight's the night to do dumb shit
Tonight's the night to get famous
Let get stupid, crazy
And make this night so amazing
Party hard til the sun light.. 3,2,1 night
Welcome to my world my world
Got a couple dollars and a fly girl
Used to have a mind but I lost it
Somewhere in the middle of the most pit
And I'm wildin' styling
Somewhere off on an island so put that case down with that glass up cause it's face down with that ass up
