

# West of the Fields

R.E.M.

Long gone intuition to assume are gone when we try  
Dream of living jungle heed my way  
Back home when we die West of the fields, west of the fields  
West of the fields, west of the fields  
Long gone, long gone, long gone, long gone  
West of the fields Dreams of Elysian to assume are gone when we try  
Tell now what is dreaming when we try  
Listen with your eyes, oversimplify  
West of the fields, west of the fields  
West of the fields, west of the fields  
Long gone, long gone, long gone, long gone  
West of the fields The animals how strange, try, try to stick us in  
The animals how strange, try, try to stick in Dreams of Elysian to assume are gone when we try  
Tell now what is dreaming when we try  
Listen to your eyes when we die West of the fields, west of the fields  
West of the fields, west of the fields  
Long gone, long gone, long gone, long gone  
West of the fields  
West of the fields, west of the fields  
West of the fields, west of the fields  
Long gone, long gone, long gone, long gone  
West of the fields
