

# We Exist

## Arcade Fire

They're walking around head full of sound  
Acting like we don't exist  
They walk in a room stare right through you  
Talking like we don't exist But we exist  
Daddy it's true, I'm different from you  
But tell me why they treat me like this?  
If you turned away, what would I say Not the first betrayed by a kiss Maybe it's true  
They're staring at you  
When you walk in a room  
Tell them it's fine  
Stare if you like  
Just let us through Just let us through  
They're down on their knees Begging us please  
Praying that we don't exist  
Daddy it's fine, I'm used to them now  
But tell me why they treat me like this?  
It's cause we do it like this  
Maybe it's true They're staring at you  
When you walk in a room  
Tell them it's fine, stare if you like Just let us through  
Just let us through  
Let them stare, let them stare! If that's all they can do  
But I'd lose my heart  
If I turned away from you  
Daddy don't turn away  
You know that I'm so scared  
But will you watch us drown?  
You know we're going nowhere  
We know we're young  
And no shit we're confused  
But will you watch us drown?  
What are you so afraid to lose?  
Down on your knees  
Begging us please  
Praying that we don't exist  
Down on your knees  
Begging us please  
Praying that we don't exist  
Down on your knees  
Begging us please  
Praying that we don't exist  
We exist

We exist  
We exist  
We exist
