Hands

Barns Courtney

We watched the bands until the stars burn out the morning sky You dragged me in became the skin that keeps me warm at night All that you left me was a number, on the back of my hand I kissed the poison on your lips till I was paralysed Now all the chemicals are burning right between my eyes All that you left me was a number, on the back of my hand I got nothing Woohoo Woohoo So I've been walking Im gonna find you Through every backstreet I will run through Ooo I count the days Ooo till I can bring you home Your hand in my hand Woohoo Woohoo Hoo Lets slip away I know a place some where outside of town I lost your grip out in the rain amongst the raging crowd And all your numbers started fading, from the back of my hand I got nothing Woohoo Woohoo So Ive been walking Im gonna find you Through every backstreet I will run though Ooo

Through every backstreet I will run though Ooo I count the days ooo till I can bring you home Your hand in my hand yeah Woohoo Woohoo Hoo Woohoo Woohoo yeah

Woohoo Woohoo yeah Woohoo Woohoo yeah Till I can bring you home Woohoo Woohoo yeah Woohoo Woohoo yeah Woohoo Woohoo yeah Sill I can bring you home

Soo Ive been walking I'm gonna find you Through every backstreet I will run through Ooo I count the days ooo till I can bring you home Your hand in my hand Woohoo Woohoo Hooo
