

Little Boy

KSI

YooooYou thought I forgot about you little boy
Yo these niggas ain't readyYeah
Little boy tryna get involved
Come on then come on then let's get involved you prick
Posh boy now wanna rap
Posh boy now wanna scrap
Posh boy bout to get clapped
By the end of the verse you're gonna wish you never did that
Wish you never hit back
Guernsey's little boy gonna feel it when I get it wid the click click click clack
You ain't part of this group, you ain't sideman you gook
Deciding when to be a sideman
While you're too busy faking all the packs
And then making racks and spending all of that shit on
Now Rosie a sket, and I know that you're listening beginning to sweat
Little boy not looking innocent all 'cause he wanna be relevant
Tatted my name on my body so you know I'm now in my element, I'm in my element
Call me what ever you want, still looking up to me
Sidemen the name of the group, all 'cause they needed to help from me
Yeah bitch, I was the come up
I'm the foundation for you to go run up
Keep playing FIFA you ignorant fuck
Your girl is a gold digger, fuck
At least she knows how to suck
Wipe the floor when I deal with scrubs
Come at me, but I win in subs
Im the giant just killing bugs
You're just a shit Chris MD
You need to get off MD
How many girls have you fucked in your life?
One
That's mad
Your girlfriends forehead is mad
When you ask the sket to go give you head
Her reply is which one?
Your dad is a weirdo
He looks just like a pedo
More inbred than yeast
Your mum gets fucked by sheep
Your sister fucks a crowbar
Fam it's really that deep
Sorry nigga, but I said itLittle boy now regret itHAHAHAHA

You want to say that shit to me? Huh?
You want to say that shit to me?
Learn how to spell renowned you fucking idiot
Not today little boy
