

For You (feat. Tory Lanez & G-Eazy)

Phora

It's a long time
Heard it all before
It's a long time
Tell me is this what you're looking for
It's a long time
Heard it all before
It's a long time
Tell me is this what you're looking for I got too much on my mind
I've been tryna make some time (aye, aye)
For you, for you, for you, you (yeah)
And some people, they never change
But me, I've always been the same (aye, aye)
For you, for you, for you, you (yeah)
Damn, I'm still down for you
I'll stick around for you (aye, aye)
For you, for you, for you, you (yeah)
I'm still down for you
I'll stick around for you (aye, aye)
For you, for you, for you, you (yeah) I always drop it down for you
Down to do what we were bound to do
Everything I did surrounded you
That's why you're the one I'm grounded too
Let's just make it, let's just make it
Try to be, your ex is crazy
Try to find an exit baby
Try to find the exit- know that
I want you and you want too
And we act like we did not know
We both knew, we go through
You were going through some other shit, I didn't know
I didn't know, feelings that I didn't show
Things that I could've did to make this grow, but I didn't
Keep focus, deep stroking
Love smoking, suddenly we keep choking
She got me off it, oh Damn, I'm still down for you
I'll stick around for you (aye, aye)
For you, for you, for you, you (yeah)
I'm still down for you
I'll stick around for you (aye, aye)
For you, for you, for you, you (yeah) Kind of thought that it was time to move on
Time to leave here, like you put your shoes on
The heart is fragile that you left a bruise on

Summer nights and think it's hot a Tuscon
Arizona, I was thinkin' you had a few Coronas
But all you've shown us is you're indecisive
Don't know if you've noticed (of course you noticed) And I was honest when I looked at you
and said "I promise"
I wait the longest,
If you coming back because our loves the strongest (straight up, yeah)
I'll be here, but I won't wait for too long
My friends don't agree, don't let me get proved wrong
So please say something before we're too long
Never be the one I thought you would do wrong Fake love, fake hugs, numb the pain, take drugs
Light distraction, light buzz, we got out, nightclubs
Spending money, pay stubs, anything, to change us
That expression that your face does when
I'm tellin' you how long this wait was (damn) Damn, I'm still down for you
I'll stick around for you (aye, aye)
For you, for you, for you, you (yeah)
Damn, I'm still down for you
I'll stick around for you (aye, aye)
For you, for you, for you, you (yeah)
