

Broccoli

McFly

Everything was goin just the way i planned
the broccoli was done,
She doesnt know that im a virgin
in the kitchen cos its normally my mum, But then she called me and thats when she said to me
she wasnt coming round for tea I should have known much better
But its so hard i cant forget her
But she keeps playin me around
But im trying so hard to impress her
She puts me under so much pressure
And i just wanted her to let me know
she cares
Blowing out the candles now
and thats the way she treats me im a fool
and everyone will tease me now
the rumours start to spread around the school (yer yer)
They say that im a loser
that girls so cruel
But i keep feeding her the fuel I should have known much better
But its so hard i cant forget her
but she keeps playin me around
but im trying so hard to impress her
She puts me under so much pressure
And i just wanted her to let me know
she cares i know she cares, i know she cares,
she cares she cares she cares she cares!
she cares, she cares!
I should have known much better
But its so hard i cant forget her
But she keeps playin me around
But im trying so hard to impress her
She puts me under so much pressure
And i just wanted her to let me know... I should have known much better
But its so hard i can forget her
But she keeps playin me around
But im trying so hard to impress her
She puts me under so much pressure
And i just wanted her to let me know
she cares
