

Can't Bring This Down

Bridgit Mendler & Pell

Shake my head like this
You better stop it
Too high, too quick
You were the one
I never felt like this
If I'm being honest I can't bring this down
Yeah, yeah, yeah, yeah, yeah
I can't bring this down
Yeah, yeah, yeah, yeah, yeah
(I can't bring this down)
Shake my head like this you better watch it
That ain't all your lovin', makin' profits
I'm a prophet, I'm just honest
Clean up nice, fly as comets
We take off like my conscious
So I don't wanna bring this down, down
Don't get scared when my friends are 'round
I need your TLC
Chasing down your waterfall
While you got both eyes left on me
I don't mind if I OD 'cause you the only drug I need
And if I get too wise, probably where I need to be, please Shake my head like this (like this)
You better stop it
Too high, too quick (too quick)
You were the one
I never felt like this
If I'm being honest (yep)
I can't bring this down
Yeah, yeah, yeah, yeah, yeah
I can't bring this down
Yeah, yeah, yeah, yeah, yeah
(I can't bring this down) Shake my head like this
You make me spin around
Take a trip back to my hometown
Show you what's going down, down
Boy you've got to mention
It's not a simple one I know
Saw you in my mansion
Shot my heart and caught my soul
Floating up to somewhere
Wave goodbye to folks at home
Heaven is a place that only we know Your body is heaven on Earth

Your convo is mama's dessert
Sweet and deserved
And we know relations take works
So roll up them sleeves, look at her
(Whop, skrr) Shake my head like this (like this)
You better stop it
Too high, too quick (too quick)
You were the one
I never felt like this
If I'm being honest I can't bring this down
Yeah, yeah, yeah, yeah, yeah
I can't bring this down
Yeah, yeah, yeah, yeah, yeah
(I can't bring this down) I can't bring this down
Yeah, yeah, yeah, yeah, yeah
I can't bring this down
Yeah, yeah, yeah, yeah, yeah
(I can't bring this down)
