

# Down

Ella Mai

Tell me what you wanna feel  
Is there something I can heal?  
We can paint the perfect picture, picture  
Make a story we can tell  
Honestly ain't tryna push  
I just know where to look  
See you watching me watching you watch my body  
Don't be scared to speak up So deep in lust that we just might drown  
Don't do it  
Help me believe that it's love we found, stick to it  
What's in the air got me up right now, zooming  
I'm tryna show you but don't know how  
If you show me you're down maybe I'll stick around  
This could be something that's special for us  
If you show me you're down maybe I'll stick around  
This could be something that's special for us  
Cause this could be forever after  
I just want you to myself  
Tryna be the one that matter  
Follow me lets make it clear  
If you show me you're down maybe I'll stick around  
Wanna know if you're sure  
Maybe I can be the cure  
Got me caught up in my feelings, thinking  
We should be a little more  
Don't really know what you do to me  
But take that next step boy it's cool with me  
Cool with me  
So deep in lust that we just might drown  
Don't do it  
Help me believe that it's love we found, stick to it  
What's in the air got me up right now, zooming  
I'm tryna show you but dont know, how If you show me you're down maybe I'll stick around  
This could be something that's special for us  
If you show me you're down maybe I'll stick around  
This could be something that's special for us
