

# Repeat (feat. Jessie J)

David Guetta

You're stuck on repeat, repeat-peat, repeat  
You're stuck on repeat, repeat-peat, repeat I can see your mouth move  
But I don't hear the words  
And while you dig yourself a hole  
You're burying me in the blur  
I can taste the fake, the shame  
I've heard this story before  
And while you dig yourself a hole  
It's the same shit, different girl When I was building a home, you made a bed of your own, a  
perfect little life for three  
But now your cover is blown, you get to be on your own, and find another stupid girl like me So  
go out and party, cause I'm just getting started  
And I'm dancing to a brand new beat  
Cause you're just stuck on repeat, repeat, repeat  
You're just stuck on repeat, repeat, repeat  
So go out and party, like you're not broken-hearted  
Cause you'll always just be stuck on repeat  
Cause you're stuck on repeat, repeat, repeat  
You're stuck on repeat, repeat, repeat I wanna know, was I the one  
Or just the chick on the side?  
I gave it all, broke down my walls  
You dare say I didn't try  
But you won't stop, stop telling me what, what you think I want to know  
I'm rejecting the sight of you, deleting the thought of you record this, and watch me go When I  
was building a home, you made a bed of your own, a perfect little life of three  
But now your cover is blown, you get to be on your own, and find another stupid girl like me So  
go out and party, cause I'm just getting started  
And I'm dancing to a brand new beat  
Cause you're stuck on repeat, repeat, repeat  
You're stuck on repeat, repeat, repeat  
So go out and party, like you're not broken-hearted  
Cause you'll always just be stuck on repeat  
Cause you're stuck on repeat, repeat, repeat  
You're stuck on repeat, repeat, repeat
