

# Kno the Meaning

## Future

My uncle Ronnie used to wash cars  
My uncle Wayne was a kingpin, you know what I'm saying  
My uncle Don, that nigga used to rob banks and shit, rest in peace  
My granddaddy was a boss, he was a king pin you hear me  
Got the game from them old niggas  
You gotta know where I'm from to get to know a nigga  
I'm still glad I smoke weed  
Hidin' from the police  
I spent time overseas, hanging out in England  
And I got the squad on my mind and I mean this  
Do a little time out the country, I need this  
56 nights, gotta know the real meaning  
Dropped Monster tape and had to go to Europe  
Best thing I ever did was fall out of love  
Esco came to me, he said they think you washed up  
You need to go back in, show these niggas who the one  
We going back in as soon as we get off tour  
He had my hard drive on him when he caught the case  
When they took him in custody they took my life away  
People didn't even understand that my hard drives that I recorded all my music on for two years  
straight was on this... was on this one hard drive that Esco had and he was locked up with it, so  
I had to record new music. That's when I did Beast Mode  
I'm fresh off the plane on them [?]  
I endured so much pain, ain't got Esco with me  
Ain't got nobody smoke one or pour with me  
Niggas rocked the lean, man, when I was OT  
And I'm still dealing with the time they gave Doe B  
How you gon' get your armed robbery around me?  
And my lifestyle getting way bigger  
I got so much love for my niggas  
Brown paper bag we getting back to the paper  
Getting back to the basics  
Everything I did, it was premeditated  
I just knew there'd come a time when I finally did make it  
And some niggas started hating, I ain't never had no problem with these niggas  
I've been about my guala from the dodo  
Got an R&B chick laying on me, no photo  
Got a combo in the condo doing some real life porno  
And I ain't worried about nothing in the world, keep that badass bitch  
These niggas ain't on my problems, damn that shit  
There's so much more I gotta endure  
I just had my baby gotta go on tour  
Got the game from them old niggas  
You gotta know where I'm from to get to know a nigga  
I'm still glad I smoke weed  
Hidin' from the police

I spent time overseas, hanging out in England  
And I got the squad on my mind and I mean this  
Do a little time out the country, I need this  
56 nights, gotta know the real meaning I ain't holding this back, I ain't holding this  
The music way ahead of its time and I notice this  
Get back in the studio, give them what they was missing  
They didn't know I knew the game and I know how to reinvent it  
They ain't know me in the projects, they just know me from rhyming  
My hard work finally catching up with perfect timing You know what I'm saying, I could take a  
hundred dollar slab and goddamn make three hundred off that bitch, you dig? Got the game  
from them old niggas  
You gotta know where I'm from to get to know a nigga  
I'm still glad I smoke weed  
Hidin' from the police  
I spent time overseas, hanging out in England  
And I got the squad on my mind and I mean this  
Do a little time out the country, I need this  
56 nights, gotta know the real meaning  
Everything in the streets, it prepared me for everything that I'm going through right now. The  
good and the bad, you know what I'm saying? Can't let none of this shit get to me. I go harder  
cause I know where I was at, and I know where I wanna go
