Follow You Down (feat. Bright Lights)

Zedd

Fading
So slow
Black Hole
I feel it slippin' away
We're all
We've got
If you're lost
I'm divin' in after you
I could touch the sun
I'd come undone
It's true
I'd fall
For you
Wherever you go
Whatever you do
You'd know I'll follow you down
Wherever you go
If ever you lose ground
I'll follow you down
Oooooh
I'll follow you downOoooohI'll follow youDownDownDown
Down
DownDownDown
Down
DownWherever you go, whatever you do
You know I'll follow you downWherever you go, if ever you lose your ground
I'll follow you down
Oooooh
I'll follow you down
Oooooh
I'll follow you
You're lost
Worn out
Face down
Dont know where you're headed to
Right here
Right now
Somehow I'd light the way out for you
I would touch the sun
I'd come undone
It's true
I'd fall for you

Wherever you go
Whatever you do
You'd know I'll follow you down
Wherever you go
If ever you lose ground
I'll follow you down
Oooooh
I'll follow you down
Oooooh
I'll follow you
Down
Down
Down
Down
Down
Down
Down
Down
Wherever you go
Whatever you do
Wherever you go
Whatever you do
Wherever you go
Whatever you do
You'd know I'll follow you down
Wherever you go
If ever you lose ground
I'll follow you down
