I'll Never Stop Loving You (Asian Version Only)
they say in this world
nothing lasts forever
but iu don't believe that's true
'cause the way i feel
when we're together
i kno that's the way
i'll always feel for you
chorus:
from now until forever
that; s how long i'll be true
i'll make u this vow
and promise u now
untill forever
i'll never stop loving youthey'll come a day
when the world stops turning
and the stars will fall from the sky
but this feeling will last
when the sun stops burning
all i wanna do is love you,
till the end of time(repeat chorus)
it's gonna take more than a lifetime
to give u all the love
all the love i feel for you tonight.(repeat chorus)
