

# Iron

## Calvin Harris & Nicky Romero

Love the way I feel  
Streets replaced with fields  
Wide awake in here  
You shineRan away from goals  
Left you in the cold  
Nothing's in our way tonight  
You know that you'll never be replacedAnd everyone here made the same mistakes as me  
And either way our time won't go to waste  
Our hearts will never be the same again  
Our hearts will never be the same again  
Our hearts will never be the same again
