

Backyard

Pebbles & Salt-N-Pepa

Do you get suspicious?
Watch for the glances?
Don't put your love life in the streets
Do you get suspicious?
Watch for the glances?
You better take it from me
Friends, who needs 'em?
One can't live with 'em, can't live without
Men, can't keep 'em
Not when your good friend is trying to bring you down
Down, down, down
Do you get suspicious when they call you their girlfriend
And you don't know them very well?
Watch for the glances on the side to your boyfriend
Just read the signs, I'm sure you can tell
You see somebody standing in your own backyard
Somebody's trying to steal your man
Don't be a fool and let them get that far
You better stop them while you can
Hold on to your man
Hold, hold
Hold on to him
Hold on
Hold, hold
Trends, they feed 'em
They all jump on it, on whatever is hot
But girlfriends be careful
Because your man might be just what they ain't got, no
You should be cautious if you've found
you a good man
Don't put your love life in the streets
There is a shortage of good love from a good man
So watch your back, you better take it from me
You see somebody standing in your own backyard
Somebody's trying to steal your man
They'll try and steal your man
Don't be a fool and let them get that far, no fool
You better stop them while you can
Stop them while you can
Hold, hold
Hold on to him
Hold on
Hold, hold
You better take it from me
Don't be no fool
Yo, you better watch out, she's out to take your guy
And I can see why, he's fly even I
Had my eye on him for a long time
Yo Pep, what? kick that rhyme
Don't be dumb, all the girlie's want some
He's paid, he's not a bum
Know where I'm coming from?

Understand she has a plan
And that's right, she'll take your man So you better hold on tight
She'll take your man and you know that I'm right
She'll take your man, girls be on your best guard
'Cause she'll take your man, right from your own backyard Oh, if you see somebody standing in
your own backyard
They're out to get your man, girl don't you let them in
Don't you be a fool and let them get that far
So stop them while you can, they've got a master plan You see somebody standing in your own
backyard
Somebody's trying to steal your man
You better take it from me
Don't be a fool and let them get that far, no fool
You better stop them while you can 'Cause when you snooze, you lose
That's when they make their move
So stop them while you can
It's just a matter of time and girl that ain't no lie
They're out to take your man
Hold on to your man Hold on, hold on, hold on to your man
Hold on, hold on, take it from me
Hold on, hold on, hold on, to your man
Hold on, hold on, can't you see? Do you get suspicious?
Watch for the glances?
Don't put your love life in the streets Do you get suspicious?
Watch for the glances?
You better take it from me Oh, if you see somebody standing in your own backyard
They're out to get your man, girl don't you let them in
Don't you be a fool and let them get that far
So stop them while you can, they've got a master plan You see somebody standing in your own
backyard
Somebody's trying to steal your man
You better take it from me
Don't be a fool and let them get that far, no fool
You better stop them while you can 'Cause when you snooze, you lose
That's when they make their move
So stop them while you can
It's just a matter of time and girl that ain't no lie
They're out to take your man
Hold on to your man Hold on, hold on, hold on to your man
Hold on, hold on, take it from me
Hold on, hold on, hold on, can't you see?
