Honey Or Fire

Andra Day

You drew this line
But can't pick a side
Is it on, is it over
Are you in, are you out
Make up your mind
So I can keep mine
Is it on, is it over

Are you in, are you outYou're in the wind just like a palm tree in a storm

But I'll be the only one to break and fall

When you call ohSo give me honey

Give me fire

Give me honey

Or give me fire

You love me you say

And then run away

Are we coming or going

is it on, is it off

Or call everyday

Then say you need space

Are we coming or going

Is it on is offYou're in the wind just like, a palm tree in a storm

But I'll be the only one to break and fall

When you call oh, ohGive me honey, give me fire

Love me wholly, or let me fly

Hot or cold, no just right

So give me honey or give me fire

Cause you ain't no good when you're, you're just luke warm

And I'm closing this bar

So make your last call

We can have everything, or nothing at all

Give me honey, give me fire

Give me honey, or give me fireGive me honey, give me fire

Love me wholly, or let me fly

Hot or cold, no just right

Love me wholly, or let me fly

Cuz you ain't no good, no you ain't no good oh no

So give me honey or give me fire

Oh cuz you ain't no good when you're, you're just luke warm Song Discussions is protected by U.S. Patent 9401941. Other patents pending.
