

# Wanderlust

## The Weeknd

Is it so hard to say the same thing?  
And you're so weak to say the same thing  
Burn a hole into your apprehensiveness  
And let the wildfire shine  
And repeat after me  
Good girls go to heaven  
And bad girls go everywhere  
And tonight I will love you  
And tomorrow you won't care (Precious little diamond) (I give it all to you) (Precious little  
diamond)  
(I give it all to you) (Precious little, precious little diamond)  
(I give it all to you)  
(Precious little diamond)  
(I give it all to you)  
You're in love with something bigger than love  
You believe in something stronger than trust Wanderlust  
Wanderlust Don't you shy away from me  
Just sacrifice your every last inhibition  
I'm on your side  
Don't patronise You know tonight  
Is the only time we'll have each other Why would you try to waste this precious time?  
'cause tonight I'll be right here  
And tomorrow you won't care  
(Precious little diamond)  
Precious little diamond  
(I give it all to you)  
I give it all to you  
(Precious little diamond)  
Precious little diamond  
(I give it all to you)  
(Precious little, precious little diamond)  
Precious little diamond  
(I give it all to you)  
I give it all to you  
(Precious little diamond)  
Precious little diamond  
(I give it all to you)  
You're in love with something bigger than love  
You believe in something stronger than trust  
Wanderlust  
Wanderlust  
They're in love with this idea of love

It's a shame that they'll believe it will come  
For us all, for us all  
You're in love with something bigger than love  
You believe in something stronger than trust
