

Hold Me Down

Daniel Caesar

If you love me baby, let me hear you say it
I know I'm your favorite
First you love me then you leave me in the basement
I know I'm your favorite
If you love me baby, let me hear you say it
I know I'm your favorite
First you love me then you leave me on the pavement
I know I'm your favorite I got this girl she's making me crazy
I nearly let her have all my babies
Pussy so good it sets me on fire
I leave myself I elevate higher
You're fly girl but you're headed to maybe
I'll take the time treat you like a lady, yeah
My life's a spectacle, a sad story
Perhaps I find my way to the glory, yes
I don't wanna took you to higher heights
That's what I was trying to do
I know you had your dreams of a better life
This time we ain't making it through If you love me baby, let me hear you say it
I know I'm your favorite
First you love me then you leave me in the basement
I know I'm your favorite
If you love me baby, let me hear you say it
I know I'm your favorite
First you love me then you leave me on the pavement
I know I'm your favorite You're getting on a plane
And travelling far away
You've left me with the pain
I carry it everyday
Who do you think you are?
Some kind of celebrity?
Just wait and see
I never asked for much, only that you stay true
Need I remind you all the things I do for you?
Who can not blame, I play the game
Well just for now
I was wondering, can you hold me down?
I was wondering, can you hold me down?
