

# Penny

## People In Planes

Penny it's so silly to me  
I guess you're only holding out on me  
I telephone you're never ever home  
And everytime I call it drives me up the wall  
It's crazy to me  
I took you to see all the stars in the sky  
You took me by surprise  
There isn't a doubt  
That's what you're talking about  
Everybody knows it but me  
Penny I got your number  
You're so easy to read  
You make the sidewalks bright  
In the dead of the night  
You ought to give yourself a hand  
Penny I got your number  
You know you gave it to me  
Well you could dance all right  
With the boys all night  
You know you got control  
Penny the arcade is getting old  
Penny I got two cities on hold  
Haunted by the promise of another man  
Penny it's not that I don't really understand  
It's crazy to me  
I took you to see all the stars in the sky  
They twinkle in your eyes  
There isn't a doubt  
It's what you're talking about  
Everybody knows it but me  
Penny I got your number  
You're so easy to read  
You make the sidewalks bright  
In the dead of the night  
You ought to give yourself a hand  
Penny I got your number  
You know you gave it to me  
Well you can dance all right  
With the boys all night  
You know you got control (know you've got control)  
Over me
