Our nervousness (?)  
As the old friend tell (?)  
A new one is taking gripIn all of us lies secrets  
Hidden inside hollow hearts  
Heaven was built by heathens  
There's no place for us, never was  
All seeing eyes won't let us see  
Truth and purpose is meant to sting  
When the pain strikes we crash to our knees  
This is the eve of everything  
This is the eve of everything  
This is the eve of everythingI need to forget and to move on  
I need to feel loss to cherish loveIn all of us lies secrets  
Hidden inside hollow hearts  
Heaven was built by heathens  
There's no place for us, never wasWhen the pain strikes we crash to our knees  
This is the eve of everything  
This is the eve of everything  
This is the eve of everything  
I need to forget and to move on  
I need to feel loss to cherish love  
I need to face fear without a pause  
I need to fall to learn to stand upIn all of us lies secrets  
Hidden inside hollow hearts  
Heaven was built by heathens  
There's no place for us, never wasAll seeing eyes won't let us see  
Truth and purpose is meant to sting  
When the pain strikes we crash to our knees  
This is the eve of everything  
All seeing eyes won't let us see  
Truth and purpose is meant to sting  
When the pain strikes we crash to our knees  
This is the eve of everything  
This is the eve of everything
