Love Incredible (feat. Camila Cabello)

Cashmere Cat

I forgot the feeling
The feeling of being alone but not lonely
I guess when you touch me
My fears and my secrets belong to you only
Close the door behind you
Just let me love you, slow you, hold you
My mind stays on you
So does my body, let me show youBut I wanna go through
And I wanna need you
Could you be my muse?
Lately all I think about is you
I'm never sick about it
This love's incredible-credible
Have a little mercy on me, baby, you got me
Wanting more, wanting more
Of your love-ove
Incredible-credible
Have a little mercy on me, baby, you got me
Wanting more, wanting more
Of your love-oveI know you've been hurt
By the way that you look away
From me too early
You don't like to talk about it
And that's fine, I get it
So don't worry
But I wanna go through
And I wanna need you
Could you be my muse?
Lately all I think about is you
I'm never sick about itThis love's incredible-credible
Have a little mercy on me, baby, you got me
Wanting more, wanting more
Of your love-ove
Incredible-credible
Have a little mercy on me, baby, you got me
Wanting more, wanting more
Of your love-oveWanting more, wanting more
Of your love
Wanting more, wanting more
Of your love
This love
Wanting more, wanting more

Love Incredi-ble
Your love
Your love
Love Incredi-ble
Your love
Your love
Love
