

# Not Like You

## Boyz II Men

You still work every day I guess I never really thought about it  
Around the world play a film with you...  
All the face book photographs of ladies adoring me  
Meanwhile you were sitting home alone  
My whole world is falling apart  
Caught me off guard  
Cause we never ever talked about it  
My heart breaks into million words  
Million tears just can't do nothing about it  
Smile and I don't want you  
To apologies for what you feel  
Girl you were looking for the love in me  
[Chorus:]  
Images keep on swaping on my mind  
Every day I got to think about it  
Not like you  
True things I don't question [?] matter  
Not like you  
Baby I am selfless [?] I got too busy almost loosing you  
I know that's not like you  
I knew I had you so I took your love for credit  
Like I really didn't care about  
Never realize what you got till it's gone  
Never think about you  
Not like you  
Every real love kept me [?] thinking about you  
Catch her in the shame [?] forgive me I have been such a foul  
This is not like you  
I almost lost you know I know for sure  
You had a lot worth fighting for  
Even though it hurts I am gonna hold on tight  
I will never let you go  
But if I [?] cheating saying sorry doesn't say the [?]  
I guess I got to learn my lesson from pain from memories  
[Chorus:]  
Images keep on swapping on my mind  
Every day I got to think about it  
Not like you  
True things I don't question [?] matter  
Not like you  
Baby I am selfless [?] I got too busy almost loosing you  
I know that's not like you

I knew I had you so I took your love for credit  
Like I really didn't care about  
Never realize what you got till it's gone  
Never think about you  
Not like you  
Every real love kept me [?] thinking about you  
Catch her in the shame [?] forgive me I have been such a foul  
This is not like you  
Not like you  
Baby please  
Not like you  
Baby please don't leave me  
Not like you  
Forgive me forgive me  
Not like you  
Is just so much baby  
Catch the flow and the shame  
My ego [?] forgive me I have been such a foul  
This is not like you
