

# The God Supreme

## Jedi Mind Tricks

I feel sorry for you mo-motherfucker, you a waste  
When I say that you're my dog, I mean a muzzle in your face  
The streets and the dean have me struggling with faith  
The guns mad big like [?] waist  
I'mma a gorilla God, jungle is my habitat  
Murder many infidel, y'all see a [?]  
How you wanna talk shit and tuck your chain after that  
Infrared beam green aimed at where your [?] is at  
Dirty money lord you can check the back plate  
Run up on his [?], show him how the gat tastes  
There's a million motherfuckers in a rat race  
I ain't part of that guard y'all can get gas face  
Fuck all fakes, see you at Allah gates  
All my dogs gonna swarm on you like raw steaks  
Pies and jumbs, I'mma let em all bake  
If Vinnie here rapping, good hands like [?]  
Its the storm without the calm, a pistol in my palm  
Its the blood being drawn from your body on this song  
It's the life that I'm living, no fucks that I'm giving  
It's a murder scene, tell a fucking ambulance to get em I'm always trying to break bread  
Always trying to take the fucking ground so I can take heads  
Underground rappers, more bummier than bass heads  
Head-shots leave y'all planet of the apes dead  
Jeff Chandler, I'mma let them hands fly  
This a case, Vinnie keep shooters on standby  
Anybody told you any different is a damn lie  
You ain't really beef, real beef get pan-fried  
I be in Japan high, y'all be on some stupid shit  
Philly streets, motherfuckers cross you like a crucifix  
It's Allah, I'mma be alive like Busilvex  
Four pound, break your chest up like Mucinex  
Dead cause I said so, I'mma let the TEC blow  
Fiends lined up like an edge on a retro  
Ill from the gecko, I just caught a homi  
The bullets pierce kevlar, hotter than wasabi  
Its the storm without the calm, a pistol in my palm  
Its the blood being drawn from your body on this song  
It's the life that I'm living, no fucks that I'm giving  
It's a murder scene, tell a fucking ambulance to get em Official Pistol Gang  
Song Discussions is protected by U.S. Patent 9401941. Other patents pending.
