

# Get On the Right Road

Gary Wright

We've got to show them that we're right  
We'll win the battle - let's start the fight  
We got to show them where they belong  
We've got to teach them to sing our song  
And if we get on the right road today  
Get on the right road  
Get on the right road today  
Before it's too late to get started  
Keep telling yourself that you're doin' right  
You can't win the battle without a good fight  
Keep spreading the truth and dispelling the lies  
But watch out for the hate that awaits a price  
Can't you see that we're livin' in a world  
Too young to waste the time  
Too young to wait for old things to go  
Too young to say I told you so  
We've got to show them before it's too late  
We'll show them all that it's too late to wait  
Can't poison the world and hope to survive  
Cuz greed money and hate won't keep 'em alive  
out
