

My Name Is Thunder (Electronic Version)

The Bloody Beetroots

[Verse 1]

I'm a white light that's burning
(Right across your sky)
Gonna light up the city
(And light up your night)
Like a flame that keeps burning
(Shining on bright)
I'm a flash across the sky[Chorus]
My name is Thunder
Thunder, yeah[Verse 2]

Now they're running for shelter
And they run for their lives
Now they're looking for cover
Will you make it alive?

[Bridge]

What ever happened to the sunlit skies?
When we were living in a different light
There's only lonely places left to hide
And everyone keeps hidden out of sight
Out of sight[Verse 3]

So let's light up this city and make it our own
A call to the people
We'll turn up the sun
A new day is coming
We're writing our names
I'm a flash across the sky[Chorus]
My name is Thunder
Thunder, yeah

[Verse 4]

I'm a white light that's burning
(Right across your sky)
Gonna light up the city
(And light up your night)
Like a flame that keeps burning
(Shining on bright)
I'm a flash across the sky[Outro]
My name is Thunder
