

# Mr. Put It Down (feat. Pitbull)

Ricky Martin

Now first of all  
Come on baby take it off,  
Come on baby break me off  
Then she said she loves the fact  
That Pitbull's such a dog!  
It's simple baby, I ain't picky.  
Only rule of mine is no hickey's  
Remember, lust can get tricky.  
It's Mr. Worldwide and Ricky, dale  
I'm not tryna get in your head  
And I'm not tryna push your limits  
Cause I just wanna make you feel special  
A little fun, little love, little dancing  
Who has a life time baby?  
We got the night right now  
When you see what I'm planning  
You're gonna call me Mr. Put It Down Baby give me that, give me that (oh)  
Hi give me that, give me that (ah)  
Baby give me that, give me that (oh)  
Hi give me that, give me that (ah)  
Baby give me that, give me that (oh)  
Hi give me that, give me that (ah)  
Baby give me that, give me that (oh)  
Hi give me that, give me that (ah)  
Baby I can recognize from miles away that you don't wanna be alone  
Ain't nobody looking like you do to me  
So tell me how to turn you on I'm not tryna get in your head  
And I'm not tryna push your limits  
Cause I just wanna make you feel special  
A little fun, little love, little dancing  
Who has a life time baby?  
We got the night right now  
When you see what I'm planning  
You're gonna call me Mr. Put It Down Baby give me that, give me that (oh)  
Hi give me that, give me that (ah)  
Baby give me that, give me that (oh)  
Hi give me that, give me that (ah)  
Baby give me that, give me that (oh)  
Hi give me that, give me that (ah)  
Baby give me that, give me that (oh)  
Hi give me that, give me that (ah) It's the P to the I-I to the T-T to the B-B to the U and double  
the L

I'm so hot, I'm hotter than hell  
Now baby turn around for Mr. Put It Down  
Went from the block to the yacht to the G4  
Down in DR, jet took a detour  
Not from Maryland  
But when it always comes to women there can always be more  
Get it? Be more  
Tupac, no when I get around  
Baby nice to meet ya, I'm Mr. Put It Down  
Hola, oh my  
Oh where you come from?  
Oh I, no how  
To pick the right one  
I got my spot girl  
See why the night's young  
Just follow me  
Who has a life time baby?  
We got the night right now  
When you see what I'm planning  
You're gonna call me Mr. Put It Down  
Baby give me that, give me that (Mr. Put It Down)  
Hi give me that, give me that  
Baby give me that, give me that (Mr. Put It Down)  
Hi give me that, give me that  
Baby give me that, give me that (Mr. Put It Down)  
Hi give me that, give me that  
Baby give me that, give me that (Mr. Put It Down)  
Hi give me that, give me that
