

# Evil Twin

Meghan Trainor

That's my evil twin  
That's my evil twin It wasn't me, she started it  
I said just one, then she got lit  
She takes control, she's in my head  
Making me make my bad decisions, but I'm innocent  
Two Tylenol for what she did  
So dehydrated, that crazy bitch  
I've had enough, so over it  
Making me make my bad decisions, but I'm innocent I get lost in the background  
She the star of the show  
Gotta deal with her problems  
When she lose control  
I know I can't tame her  
I don't even try  
So let me apologize  
(That's my evil twin) No, it ain't my fault  
(That's my evil twin) It wasn't me at all  
Don't be mad at me  
I can't help that she's a wild one, baby, wild one, baby That's my evil twin  
That's my evil twin I never yell, but she can scream  
She loves to give me anxiety  
She talks too much, she never quits  
Making me make my bad decisions while I'm innocent (Yeah) I get lost in the background  
She the star of the show  
Gotta deal with her problems  
When she lose control  
I know I can't tame her  
I don't even try  
So let me apologize  
(That's my evil twin) No, it ain't my fault  
(That's my evil twin) It wasn't me at all  
Don't be mad at me  
I can't help that she's a wild one, baby, wild one, baby That's my evil twin (Woo, hey)  
That's my evil twin (Hey)  
That's my evil twin  
That's my evil twin Even though she crazy, gotta love her 'cause she half of me  
Jealous of her confidence and how she moves her body, no  
But she ain't always right, I'm talkin' 'bout last night  
So let me apologize (That's my evil twin) No, it ain't my fault  
(That's my evil twin) It wasn't me at all  
Don't be mad at me (No)  
I can't help that she's a wild one, baby, wild one, baby (Yeah) That's my evil twin (Woo, hey)

That's my evil twin
