Like Real People Do

Hozier

I had a thought, dear However scary About that night The bugs and the dirt Why were you digging? What did you bury Before those hands pulled me From the earth?I will not ask you where you came from I will not ask and neither should you Honey just put your sweet lips on my lips We should just kiss like real people doI knew that look dear Eyes always seeking Was there in someone That dug long ago So I will not ask you Why you were creeping In some sad way I already knowSo I will not ask you where you came from I would not ask and neither would youHoney just put your sweet lips on my lips We should just kiss like real people do I could not ask you where you came from I could not ask and neither could youHoney just put your sweet lips on my lips We could just kiss like real people do Song Discussions is protected by U.S. Patent 9401941.
