

Fallin

Alina Baraz

Into the night, I see nothin' but stars falling
Into the night, I see nothin' but stars
Into the night, I see nothin' but stars falling
Into the night, I see nothin' but stars Play me out like a song
You shut me down
I want to let you go but I give in
I stay around, I got to
Let you know I've got to go
I'm done with you
Feeling dumb, feeling blind
I'm feeling used but I keep
Running, running
Running back to you
And you keep playing me, playing me
Playing me like a fool
I can't stop running, running
Running back to you
You just keep playing me, playing me
Playing me like a fool Into the night, I see nothin' but stars falling
Into the night, I see nothin' but stars
Into the night, I see nothin' but stars falling
Into the night, I see nothin' but stars
Catch my breath then watch you go
I can't forget the things you
Put me through, you don't care
You've got me wrapped around you
I come back, you love that
I know you do
Feeling dumb, feeling blind
I'm feeling used but I keep Running, running
Running back to you
And you keep playing me, playing me
Playing me like a fool
I can't stop running, running
Running back to you
You just keep playing me, playing me
Playing me like a fool Into the night, I see nothin' but stars falling
Into the night, I see nothin' but stars
Into the night, I see nothin' but stars falling
Into the night, I see nothin' but stars Why do I keep running?
(Running, running, running back to you)
Why can't I stop running?

(Running, running, running back to you)
I just keep on running
(Running, running, running back to you)
I cannot stop running Into the night, I see nothin' but stars falling
Into the night, I see nothin' but stars
Into the night, I see nothin' but stars falling
Into the night, I see nothin' but stars
Into the night, I see nothin' but stars falling
Into the night, I see nothin' but stars
