

# Lonely Side of Her

Marlon Williams

I can say it's time for her to go  
And take her? on the road  
I know she throw her wine on the floor  
I settle up  
I know you've seen this all before  
But you haven't see the lonely side of her  
She drinks? every night  
Talking shit and starting fights  
Up in the morning, brings her loneliness around  
Oh friend! Please don't send her upon, 'till you  
When she cries, i know her sweeter sound  
You haven't heard the lonely side of her  
No one's truly shelter from the cold  
It takes a little  
I know that i could be the one if only she could say goodbye to all that she defends  
Let me love the lonely side of her  
Say goodbye, to all that she defends  
Let me love the lonely side of her
