

Mission

Dispatch

Let it be known
To all your misbelievin'
Whacha been seein'
That we will not stand off
Will not be mistaken We will go there, leave this weakness (can't take this from me)
We will go there, leave this weakness (cause you know what)
I have been waiting Low we are not so we on a mission
Low we are not so we on a mission
Low we are not so we on a mission
Low we are not so we on a mission to be so well oh well
The way I see
People damn this and damn that
There will be no talk of turnin' back
damn this, damn that, damn people talkin'
We will fly sometime
we will find our own way
We will fly sometime
we will find our own Low we are not so we on a mission
Low we are not so we on a mission
Low we are not so we on a mission
Low we are not so we on a mission to be so well oh well
The way I see Now we are not so
we are not given
we are not sold on what we have seen
Now we are not so
we are not given we
we are not sold on what we have seen
(fly away never coming back, yeah)
Oh we could! We could!
The list is long we are many strong the ceiling's are comin' down! Low we are not so we on a
mission
Low we are not so we on a mission
Low we are not so we on a mission
Low we are not so we on a mission
