

# Trailer Trashed

## A Thousand Horses

I got a tall can of beer in my hand  
And a big middle finger to the man  
I got a couple hillbilly friends that shoot whiskey  
And a million nights I don't regret  
It's a backwoods, feel good, up all night  
Party like it's 1969  
Trailer trashed down by the river  
Hop up in the shotgun, grab another cold one  
Trailer trashed, the party's gettin' bigger  
Put on your boots, kick out the city slickers  
It's a hometown, throwdown party with some country class  
Tonight we're gettin' trailer trashed  
Now, I got some long necks and a couple of kegs  
With them pretty little things and them pretty little legs  
And I hope to get lucky with some bourbon from Kentucky  
Or some sweet moonshine from South Carolina  
It's a backwoods, feel good, up all night  
Party like it's 1969  
Trailer trashed down by the river  
Hop up in the shotgun, grab another cold one  
Trailer trashed, the party's gettin' bigger  
Put on your boots, kick out the city slickers  
It's a hometown, throwdown party with some country class  
Tonight we're gettin' trailer trashed  
I got a tall can of beer in my hand  
And a big middle finger to the man  
Trailer trashed down by the river  
Hop up in the shotgun, grab another cold one  
Trailer trashed, the party's gettin' bigger  
Put on your boots, kick out the city slickers  
Trailer trashed down by the river  
Trailer trashed, the party's gettin' bigger  
'Cause it's a hometown throwdown party with some country class  
Tonight we're gettin' trailer trashed  
We're gettin' trailer trashed  
Gettin' trailer trashed
