

Lights Out (feat. Atlas)

Zeds Dead

You know the night is young
Im trying to have some fun
And youre the only one one one
Were gonna leave the city
Well drive and drive for miles
No time to think about it
Lets run away lets run ooouh
The city has my hearth
But now were miles apart
Well make a brand new start start start
Lets find a new begining
No time to turn back now
This rode is never ending
Well find a way somehow ooouh
We got that city lights
And are they burning bright
The city lights
And are they burning bright
The city lights
And theyre burning bright
The city lights
Abd theyre burning bright
The city lights
