

You Can Get It

Ciara

404 612, hand me the phone, I'll put it in for you
Find myself slow dancin' to the song
See you watching, baby, I will put you on
Get up on me and I might just try it on
Tonight, you might just get this phone number 404 612, hand me the phone I'll put it in for you
Running into you ain't no coincidence
I've been watching you forever since And you can get it, you can get it, you can get it
You can get it, you can get it, you can get it
(Not him, not him, not him) You can get it, you can get it, you can get it
You can get it, you can get it, you can get it
(Not him, not him, not him, boy)
You can get it, you can get it, you can get it
You can get it, you can get it, you can get it
(He can try, he can try but) You can get it, you can get it, you can get it
You can get it, you can get it, you can get it For so long I been in love with you
For so long, long, long, long, long, long
For so long, long, long, long, long, long Oh, tryna keep it one hundred
Because I'm not with the games, yo
And I don't run around giving out info
Not tryna be funny it's just a side note
Otherwise I'm just fallin' for you 310 412
You got the celly now, here's the Cali number too
Running into you ain't no coincidence
I song this part already but I'll sing it again for you
You can get it, you can get it, you can get it
You can get it, you can get it, you can get it
(Not him, not him, not him) You can get it, you can get it, you can get it
You can get it, you can get it, you can get it
(Not him, not him, not him, boy) You can get it, you can get it, you can get it
You can get it, you can get it, you can get it
(He can try, he can try but) You can get it, you can get it, you can get it
You can get it, you can get it, you can get it For so long I been in love with you Oh, if you ready
to go
We can kick this thing off like first order
Baby, just let me know
We can slide up outta here, ride up outta here No pressure, no pressure
Baby, just let me show you my affection
And you can get it, you can get it
You can get it, you can get it, boy
O-o-once you get it w-w-what you gon' do it with it, ey? You can get it, you can get it, you can
get it
You can get it, you can get it, you can get it

(Not him, not him, not him) You can get it, you can get it, you can get it
You can get it, you can get it, you can get it
(Not him, not him, not him, boy) You can get it, you can get it, you can get it
You can get it, you can get it, you can get it
You can get it, you can get it, you can get it
You can get it, you can get it, you can get it For so long I been in love with you
For so long, long, long, long, long, long
For so long, long, long, long, long, long
