

# Invisible

## Big Time Rush

Do you ever wonder  
when you listen to the thunder  
And your world just feels so small  
Put yourself on the line and time after time  
Keep feeling inside that they don't know you're alive  
Are you out of mind or just invisible  
But I won't let you fall  
I'll see you, through them all  
And i just wanna let you know Oh  
when the lights go down in the city  
You'll be right there shining bright  
You're a star and the sky's the limit  
And I'll be right by your side Oh, you know  
you're not invisible to me  
Oh, you know  
you're not gonna be invisible  
Do you ever think of  
what you're standing at the brink of  
Feel like giving up, but you just can't walk away And night after night, always trying to decide  
Are you gonna speak out or get lost in the crowd Do you take a chance of stay invisible  
But I won't let you fall  
I'll see you, through them all And i just wanna let you know  
Oh  
when the lights go down in the city You'll be right there shining bright  
You're a star and the sky's the limit  
And I'll be right by your side  
Oh, you know  
you're not invisible to me  
Oh, you know  
you're not gonna be invisible  
Gotta look far I'll be where you are I wish you could see what I see  
So don't ask why  
just look inside  
Baby it's all you need  
And I don't understand why you won't (you won't) Take my hand and go  
Cause you're so beautiful  
And everytime that  
Oh  
when the lights go down in the city  
You'll be right there shining bright  
You're a star and the sky's the limit  
And I'll be right by your side

Oh, you know  
you're not invisible to me  
Oh, you know  
you're not gonna be invisible  
Oh  
when the lights go down in the city  
You'll be right there shining bright  
You're a star and the sky's the limit  
And I'll be right by your side  
Oh, you know  
you're not invisible to me  
Oh, you know  
you're not gonna be invisible
