

# Maybe We Should Just Sleep On It

Tim McGraw

(Verse 1) I got an empty feeling when that moving van pulled up  
It got a whole lot emptier as I watched them fill that truck,  
And when they carried out your clothes it took my breath away,  
Now they're headed for that bed, and all that keeps running through my head, (Chorus) Baby,  
Maybe we should just sleep on it tonight,  
And give our hearts just one more chance to change our minds,  
I could be wrong but goodbye just don't feel right,  
So baby, maybe we should just sleep on it tonight.

(Verse 2) I'll pay them boys to stop right now and leave that truck out on the curb,  
The T.V. and the phones packed up, so we won't be disturbed,  
There's not a light left in this room, just a shadow of a doubt,  
So let's make sure we don't give up, before we've thought this through enough, (Chorus) Baby,  
Maybe we should just sleep on it tonight,  
And give our hearts just one more chance to change our minds,  
I could be wrong but goodbye just don't feel right,  
So baby, maybe we should just sleep on it tonight.  
Baby, Maybe we should just sleep on it tonight,  
And give our hearts just one more chance to change our minds,  
I could be wrong but goodbye just don't feel right,  
So baby, maybe,  
Baby, maybe,  
Baby, maybe we should just sleep on it... tonight.
